INTER-STATE'S

Tulips

Are Thoroughly Tested

EACH year we plant out a great many varieties of tulips in our test garden. Some are new and very high priced. We watch them and select the best so that when the bulbs are more plentiful and reasonable in price, we know the best varieties to offer you.

For example, we "discovered" the extraordinary beauty of Leda in our test garden. It is rapidly becoming one of the most popular pinks. Columbine, Zenober, Diadem, Tosca, Doctor Euwe, are but a few that we have thus found to be outstanding. Eclipse, Advance, Yellow Emperor will sell in immense quantities just as soon as enough bulbs are available.

We test in our gardens all the varieties before we catalog them. Thus we know they will prove satisfactory to our customers.

This fall we are listing all of our tulips in alphabetical order in order to make them easier to find. First we give the name, then the class to which they belong, then the figure means the height in inches when in bloom. Then you will note in parenthesis () a letter A, B, C or D. This refers to THE TIME OF BLOOMING. Those in group A bloom first, followed by B, C and D.

Turn to page 8, there you will find all these tulips listed, each class together and each blooming group together. This will make it very easy for you to select exactly what you want.

We want to impress this fact, tulips must be planted in the fall. Plant them 5 to 6 inches deep, 4 to 6 inches apart.

EVERYTHING IN THIS CATALOG
IS POSTPAID RIGHT TO YOUR DOOR.

Every one of the named tulips are FIRST QUALITY TOP SIZE BULBS, Holland Grown, the very best we can buy. With every order we send you complete planting instructions.

Please Note

On all orders for 100 or more tulips, the 100 rate will apply if you buy not less than 10 bulbs of any one variety (remember that you figure the 100 rate of each variety and not the 100 rate of the lowest priced variety).

I want to tell you how pleased I am with the tulips I ordered from you last fall. They are much taller and larger than any I now have. They all look so wonderfully healthy. One can tell your tulips from all others upon entering the garden.

Grandmother's Collection

Here are 5 popular tulips which are planted wherever tulips are grown. All bloom at the same time. Clara Butt outsells all other varieties of pink tulips. Likewise, Farncombe Sanders is the most popular red. The huge dazzling flowers of Grenadier rank today right with the best. Mrs. Moon is recognized to be the standard rich, deep yellow tulip. The romance of the original Black Tulip goes back centuries, but today you can have a superior tulip for only a few cents, where then it cost hundreds of dollars. All of these flowers are larger than pictured. In fact, Grenadier, below, is often 10 inches across, which is wider than this entire page.

Now You Can Select Your Tulips

ACCORDING TO THE BLOOMING SEASON

The best color effects in a bed or border of tulips are obtained by planting varieties that bloom at the same time. This makes it easy for you to plan your tulip planting this fall.

In our trial grounds at Hamburg, we have checked and re-checked this list for several years. So here we have grouped them according to the time they bloom. Of course, you understand that some variety may bloom a day or so earlier, or another variety may bloom a day or so later than some of the other varieties in the same group. But generally speaking, all in each group bloom approximately the same time.

If you want a real early bed you select Group "A." If you want a medium-early bed, then you select Group "B." For a medium bed, select from Group "C." For a late bed from Group "D."

PLANT PLENTY OF TULIPS THIS FALL. The cost is so little. Every Top Size Holland Grown Bulb we send you is perfect and is guaranteed to produce a beautiful bloom next spring.

GROUP "A"

These generally commence blooming in Hamburg around April 26th. The flowers are large and very brilliantly colored. They are extra fine for borders and solid beds.

Brilliant Star	Diana	Keizerskroon	Mon Tresor	Rising Sun
De Wet	Ibis	Lady Boreel	Prince of Austria	Van der Neer

GROUP "B"

Following right after Group "A," this list includes many of the finest of all tulips. The double tulips have very large blooms and double almost like a Peony. The Triumph Tulips also last an unusually long time. Be sure to plant some. The varieties in this group commence blooming in Hamburg about May 4th.

Advance	Diadem	Olympiade	Tea Rose	Vuurbaak
Albino	Electra	Peach Blossom	The Rose	Zenober
Amanda	Elizabeth Evers	Pink Beauty	Van der Hoef	Zimmerman
Coleur Cardinal	Lord Carnarvon	Rynland	Virgo	

GROUP "C"

Every variety in this group is a good one. Darwins, Cottage and Breeder Tulips are in their full glory. Nothing we know of is more colorful or beautiful than a bed or border selected from this group. They commence blooming here about May 10th.

Bacchus	Dom Pedro	Mrs. Moon	Rembrandt
Bartigon	Eclipse	Peking	Rosabella
Black Eagle	Farncombe Sanders	Philippe de Communes	Scarlet Beauty
Bleu Aimable	Fantasy	Picotee	Sirene

City of Haarlem	Indian Chief	Pride of Haarlem	Venus
Clara Butt	Jeanne Desor	Princess Elizabeth	Yellow Emperor
Dido	Leda	Queen of the North	Zwannenburg

GROUP "D"

Now comes the Grand Finale to a glorious tulip season. In this group are tulips of such exquisite beauty that when you see them in bloom you will bow in reverence to a Creator who can produce from these plain brown bulbs planted in the fall, flowers of such magnificence.

Afterglow	Columbine	Hautain	King Harold	The Bishop
Barbara Pratt	Dillenburg	Inglescombe Pink	Prince of Orange	Vesta
Bleu Celeste	Ellen Willmott	Inglescombe Yellow	Sundew	

For quick reference, we have grouped below the tulips into the various classes to which they belong.

SINGLE EARLY TULIPS

These are the first tulips to bloom in the spring. The flowers are large and exceptionally brightly colored. They bring a cheerful welcome to spring.

MENDEL TULIPS

A new race of early blooming tulips with new tints and colors of great beauty.

Amanda	The Rose	Zenober

TRIUMPH TULIPS

A new class of tulips that is becoming very popular, as some of the world's finest varieties belong to this class. They bloom fairly early and last a long time. The flowers are large on sturdy stems.

Elizabeth Evers	Lord Carnarvon	Rynland	Tosca	Virgo	Zimmerman

INTER-STATE'S GIANT RAINBOW COLLECTION

Will bring to your garden a beautiful rainbow of twenty-five different colors

For many years we have featured the famous Inter-State Rainbow Tulip Collection. Season after season we have made it better. This year we have surpassed all previous achievements. This Fall's great offer is possible only because we import our bulbs direct from the Holland growers, buying them in such large quantities, and most important of all, because the Holland growers co-operated with us very closely in making this offer possible.

In this collection will be 50 tulips in 25 different colors. The bulbs in this Rainbow Collection are not bought by us as mixed bulbs, but are bought by name. We make the assortment right here at Hamburg, so we know each collection contains the full range of colors. Before a new tulip is included in our Rainbow collection, it must pass severe tests. It must have unusually good color. It must be a reliable grower. It must be a good bloomer. The flowers must be lasting. Every bulb is big, hand picked, **FIRST QUALITY NO. 1 SIZE** and not the smaller 10 to 11 centimeter size which is generally sold at this price.

Plant these bulbs this autumn, when the leaves begin to fall, and next spring you will enjoy, for many, many days, their exquisite, gorgeous, brightly colored flowers; the rich reds; the sparkling pinks shaded from apple blossom to watermelon; the yellows from shining gold to softest moonlight; apricot; purple; lavender; and the most gorgeous blends.

We unconditionally guarantee this collection to please you—not only when you get it, but when the tulips bloom for you. We can honestly tell you that this is the greatest value in tulips that Inter-State has ever offered.

Columbus, Wis., June 17, 1937

All the bulbs ordered last fall have given most satisfactory results. This includes Daffodils, Hyacinths and Tulips. Some bells of the Daffodils were 3 inches long. Some of the Hyacinth flowers were so large that the stem could not carry them and therefor had to be tied up. The Tulips were a sight to behold. Such a variety of colors; some of the flowers actually measured 4 inches across; most of the stems were in the neighborhood of 3 feet high, but some measured 38 inches from ground to top of flower and the stems were as large as an ordinary fountain pen. Have never seen their equal. People who visited the International Flower Show in Milwaukee this season, made the remark that on Tulips I would certainly have gotten first prize. Dr. A. F. Schmeling

Our plants are two year, field grown, well-branched and nicely rooted.

Inter-State Everblooming Roses

Inter-State roses are so well known all over America that it hardly seems necessary to say anything about them. The roses we will send you this fall, we sincerely believe, are the finest produced in the United States. In fact we are so sure of this that we make this most unusual guarantee—

When you receive the plants, if you are not entirely satisfied, write us and we will refund every cent you paid us for the roses. You need not return the rose plants, just keep them.

We believe this is the greatest guarantee ever made and could not be made if we did not know positively that our rose plants will please you.

Roses for Fall Planting

Roses can be planted successfully in the fall if you follow carefully these instructions. Plant on ground which is well drained. If there is any doubt about drainage, then dig down 30 inches and put in a six inch layer of clinkers and coarse cinders. Then put in six inches of rich fresh cattle manure to which you can add 5% of its weight of super-phosphate. Then put in six inches of clay loam mixed half and half with rotted manure. This will then leave a hole ready for planting the roses. When planting the roses use any fairly rich soil, a clay loam is preferable, but do not use any manure of any kind in this top planting layer. It is best to make the bed several weeks before you are ready to plant so that the soil can settle.

Of course you do not need to go to all the above trouble, but if you want the very finest blooms and want your bed to last, it is well worth the extra work.

After the roses are planted, setting them 14 to 16 inches apart, (be sure the dirt is pressed very firmly about the roots, and if the ground is dry, you must soak the entire bed very thoroughly), then bank soil around the plants at least eight inches high and fill the hollows between plants with manure (cow manure if possible). When the ground is frozen, cover the whole bed with straw, marsh hay, hardwood leaves or any rather coarse leafy material. This is to protect the bed from alternate freezing and thawing.

This may seem like quite a lot of effort, but the results will be so exceptionally wonderful that next summer you will write us and tell what glorious roses you are enjoying.

We offer two sizes of rose plants. Both are strictly hardy, 2 year field grown budded plants. The 2 Year No. 1 Selected Plants are the finest it is possible to grow. These roses have made Inter-State roses famous all over America. The 2 Year Standard size is a smaller plant. These are a great value at their lower price for they are genuine Inter-State roses. You have your choice of exactly the same varieties as in the 2 Year No. 1 size.

Inter-State's **LIFE-TIME PRIZE WINNING PEONIES**

THE National Peony Show for 1937 was held June 12-13th in the magnificent Coliseum of the University of Nebraska in Lincoln, Nebraska. It was generally agreed that this was the finest National Peony show ever held.

We cut almost fifteen solid truck loads of Peonies for our display, thousands upon thousands of blooms, from purest white to deepest maroon. We deem it an honor and privilege to have participated in this beautiful show.

The winning of these 29 ribbons shows that Inter-State peonies do produce fine flowers. Our fertile Iowa soil produces roots of exceptional vigor which means plants that have more and better blooms. That is what you want in your garden.

Grow and enjoy plenty of Peonies. Beautiful in the garden, fine for cut flowers. Many families make good money selling the blooms. Plant early, medium and late varieties so you will have flowers for many days. Plant some white, light and dark pinks and the many beautiful shades of red. Our Planting Handbook, sent free with every order, shows you exactly how to plant. It is easy, any one can do it.

ASK FOR OUR SPECIAL PEONY LIST

In this catalog we do not have room to list and describe the hundreds of varieties of Peonies we grow. We describe only the most popular varieties. We issue a Special Peony List which is sent free on request. We grow at Hamburg one of the largest and finest collections of peonies in America.

PEONY GUARANTEE

We know our peonies are better and we are so certain of your satisfaction that we make this unusual guarantee.

If you are not entirely satisfied when they bloom, you may select from our catalog, without cost, whatever you want equal to twice the amount you paid for the peonies.

EVERY HOME SHOULD HAVE SOME PEONIES

They are the easiest to grow of all flowers; last a life time; require no special care or soil; sure to bloom. They can be planted almost anywhere just so they get plenty of sun. Plant them in front of shrubs, along the walks, have a big bed in the back yard. Fine for low foundation planting and as a background for other flowers. Your children and your children's children will enjoy the blooms from the roots you plant this fall. Peonies are especially fine for cemetery planting because once planted, they last a life time and require no attention and bloom every year. Plant 2½ to 3 feet apart. You can plant any time now until the ground freezes but the sooner you plant, the more root growth the plants will make this fall.

At the National Peony Show held at Lincoln, Nebraska, June 12-13th, 1937, we were awarded 29 ribbons, 2 Sweepstakes, 7 Firsts, 4 Seconds, 2 Thirds and 14 Special Awards.

FIRST PRIZE, BLUE RIBBON

Best Six Blooms Any Variety

Won by *Evening Star*

This much coveted prize was won by Evening Star, a new late-blooming variety originated by Mr. Hans P. Sass, introduced by us for the first time this year. Competent judges expect great things from this variety.

The flowers are large and absolutely perfect in form. The color is a pure white, a rich, lively glowing white and not a dead lifeless white. Every stem produces a perfect flower and the stem is amply strong to hold the bloom gracefully. Every year regardless of conditions the flowers are equally perfect. It is fully double. While each petal is perfectly spaced yet the effect is not stiff or formal but is so delightfully graceful and charming that you will agree with the judges in awarding it first place. Each **\$25.00**. Stock limited.

SECOND PRIZE, RED RIBBON

Best Six Blooms, Any Variety

Won by *Grace Batson*

This is another Sass peony and is unquestionably one of the world's finest varieties. The blooms are enormous and with a tall stem strong enough to hold them up for all the world to see. The form is like a huge mum.

They are so large yet so perfectly proportioned that you fairly hold your breath when you first see them. They come good every year. The color is a lovely rich deep pink. It blooms in mid-season. We have a good stock therefore we are pricing this extra fine variety at only **\$2.50** each.

FIRST PRIZE, BLUE RIBBON

Best Ten Blooms, White

Won by *Elsa Sass*

There are hundreds of white peonies but this is one that is absolutely different and distinct from all others. The texture of the petals is very heavy with a texture like velvet. The flowers are large with strong upright stems.

It is pure white and blooms late. It blooms very freely and blooms good every year. We rate it right along with Evening Star, A. B. Franklin, Mrs. J. V. Edlund, Diana. It is truly a sensational variety and belongs in every fine collection. Our price is exceedingly low for a variety of this quality. Each only **\$5.00**.

FIRST PRIZE, BLUE RIBBON

Best Ten Blooms, Dark Pink

Won by *Lady Kate*

This fine variety was originated by Judge L. A. Vories of St. Joseph, Missouri. It well deserved to win as it unquestionably is one of the very finest late blooming rich dark pink peonies. The flowers are fairly large,

very graceful rose type, on tall strong stems. The color is a sparkling pure Paul Neyron pink. A good supply enables us to sell it at only **\$2.50** each.

FIRST PRIZE, BLUE RIBBON

Best Ten Blooms, Red

Won by

Harry L. Richardson

This fine red originated by the late Mr. Rosefield. We rate it the finest late red. The flowers are fairly large, perfectly double. The color is a rich, glowing carmine-red of extreme beauty and lustre. A good grower and free

bloomer. It takes a superior red to beat Philippe Rivoire and this one did. Every garden can have it at our special price of **\$1.50** each.

FIRST PRIZE, BLUE RIBBON

Best Single Bloom White

Won by *A. B. Franklin*

An extremely large flower which opens blush white then becomes pure white. It is a good grower, free bloomer, late, tall. It was awarded the A. P. S. Gold Medal in 1933 and we rate

it as one of the six finest of all white peonies. The fact that the originator, one of America's best, gave this peony his own name shows conclusively its worth. Each **\$10.00**.

Hans P. Sass

This variety was selected by Mr. Hans P. Sass from hundreds of his new seedlings to bear his own name and it was publicly named at the 1937 National Peony Show. It is a late-blooming, very large flower of rich satin-white suffused shell-pink, illumined by an inner glow that is indescribable. An exceptionally free-bloomer, with tall strong stems. Expert peony judges rank this peony very high. The introductory price of a peony of this quality is usually at least \$25.00 but at the request of Mr. Sass we ask only **\$10.00** each.
